Join the CDCA Today!

Why Join the Charleston Defense Contractors Association?

The CDCA is the premier advocate for the Charleston Defense contractor industry.

The CDCA mission is to advocate for, strengthen and grow the Charleston Defense industry through partnership and collaboration with stakeholders and our community. The CDCA supports the Defense community at large and represents the defense community with NIWC and other government agencies in the Lowcountry. We seek to provide liaison through effective communication avenues and represent the Defense contractor community in forums with these Government agencies.

Membership in the CDCA enables each Defense contractor with business interests in the Lowcountry the opportunity to support the Defense community. CDCA also provides input on issues and initiatives to the broader community in areas such as education, small business mentoring, and Congressional liaison. The CDCA works with the Charleston Metro Chamber of Commerce. CDCA fills and important need to speak with one trusted voice for the Defense-related technology C4ISR segment of the regional business community.

CDCA Board of Director Elections

- The CDCA is seeking candidates to serve on its Board of Directors.
- A Call for Nominees went out on 12 October 2021. Voting for the 2021 Board of Directors will begin in November 2021 and the winners will be announced at our Annual CDCA Defense Summit in December.
- You can help CDCA continue to advance its mission to advocate for, preserve, strengthen and grow the Charleston defense industry through partnerships and collaboration with stakeholders and our community. With the Strategy for 2025 being implemented, to include more partnering with NIWC and the State, and many new ideas on the horizon; CDCA needs and welcomes the enthusiastic participation of its members on the Board of Directors.
- Nominees must work for one of our Corporate or Platinum members in good standing. If you are not a Corporate or Platinum member, you can upgrade your company membership if you want to serve on the Board of Directors. Email membership@charlestdca.org to find out how.
- Our current Board of Directors can be found at the following link:

<https://www.charlestdca.org/about-overview-page>

Contracts Industry Council

“CIC”

Purpose: To increase the degree of integration and quality of the business partnership between Naval Information Warfare Center, Atlantic (NIWC Atlantic) and Industry.

Call for CIC Nominations will go out in November 2021

CDCA Defense Summit is one of the largest defense-focused events on the East Coast, bringing together more than 1,000 Government, Military, Academia and Industry leaders to spark ideas, innovation, and solutions to our current and future National Defense digital challenges. This year marks the third annual pitch competition to be featured at the Defense Summit, December 7-9, 2021. This year's pitch jam will have TWO different opportunities to pitch your innovation to Government and Industry stakeholders at the 2021 Defense Summit.

Innovation Pitch Jam Overview

The Options:

Option 1 – General Topics Innovation Pitch Jam:

- Do you have a cutting edge product that can help the DoD achieve mission goals?
- Submit your innovative product for a chance to give a technical pitch on the exhibit floor during the Defense Summit.
- Gain more visibility, awareness, and exposure for your company and convince the audience why your product is the most innovative.
- Submissions are **due Nov.5, 2021** – download the rules and submission instructions here: <https://www.charlestdca.org/innovation-pitch-jam>

Option 2 – Palmetto Tech Bridge Prize Challenge (Submission deadline has passed)

Join us at the Summit to see who was down-selected!

- Down-selected companies give 2 presentations at the CDCA Defense Summit
 1. Private, “one-on-one” presentation to the Government
 2. Live presentation on stage in the exhibit hall of the Summit

Awards

Prize Challenge:

1. Government - No guarantee of a Government award, but Government stakeholders will have options for getting funding to any solution they see fit
2. Summit - Summit attendees will view the live Prize Challenge presentations and “vote” for “People’s Choice Award”

Pitch Jam:

1. Summit attendees will view the live Pitch Jam technical pitches and “vote” for the “Best In Show”

CDCA Training Opportunities

December 7-9, 2021

*For more information, email the
CDCA Education & Workforce
Development Committee at:*

education@charlestandca.org

- Who:** Government Attendees, CDCA Members and Non-Members
* You do not have to register for the Summit to attend Training
- What:** In-Person Instructor-Led Trainings on topics such as:
* CMMC, RPA, DevSecOps, Zero Trust, Cloud Services, and others
- When:** December 7 – 9, 2021
4-hour blocks; 8am -12pm and 1pm - 5pm
- Where:** Charleston Convention Center, Meeting Rooms 6, 7 and 8
- Why:** PDUs and CEUs
- How:** To offer a training – please email education@charlestandca.org
To register for training – Training Registration to open Nov 1st

8 Technology Focus Areas (TFAs) to Achieve Technology Goals

Technology Strategy and TFA analysis drives work acceptance and lab/facility infrastructure allocations and tools.

Artificial Intelligence: Provide warfighters with analytics-driven, data-informed, and technology-empowered capabilities to drive decision advantages and optimal mission outcomes.

Assured Communications: Addresses the demand for resilient, and sometimes covert, wired and wireless communications in degraded and/or denied environments.

Cloud Computing: IT modernization and digital transformation for resilient infrastructure, platform and software services.

Cybersecurity: Provides protection from unauthorized use of and/or defends electronic data, hardware, software from disruption or of the services they provide.

DevSecOps: Refers to replacing siloed Development, Security and Operations to create multidisciplinary teams that collaborate with shared and efficient practices and tools.

Mobility: Provide Wireless Technology and enterprise access for the warfighter to engage with a mobile environment and applications, anytime, anyplace.

Model-Based Systems Engineering (MBSE): Technologies used to support the development, management and application of virtual constructs of varying fidelity across the spectrum of systems engineering.

On-Demand Manufacturing: Produce products and/or components, when or as they are required at the point of use, using additive and/or traditional manufacturing methods.

How the Navy Working Capital Fund Operates

- ▼ The NWCF is not funded via Congressional appropriations to finance its operations
- ▼ Customers send reimbursable orders to the NWCF providers
- ▼ NWCF activities operate on a Customer/Provider basis
- ▼ NWCF providers furnish the services or products, pay for expenses incurred, and bill the customers
- ▼ Improves cost awareness, promotes cost consciousness
- ▼ Mirrors private sector operations, identifies full cost

NIWCs receive initial cash
Corpus for start-up
(Cash balance is held at DON Level)

Customers send
reimbursable orders *(work
requests or project orders)* to NIWCs

NIWCs provides the
services or products

NIWCs pays for expenses
incurred and bills the
customers

NWCF operates like a business with a break even goal.

78th SECNAV Message to the Fleet

78th Secretary of the Navy Message to the Fleet

10 August 2021

To our Sailors, Marines, civilian employees, and their families and loved ones:

Secretary of the Navy

Carlos Del Toro

Today, together, we again embrace the most sacred duty – defending our nation and working to build a world more defined by peace than conflict.

I join you as someone who loves the Navy – who spent twenty-six years in uniform and another seventeen striving to make sure you had the capabilities you needed to fulfill your mission effectively and safely. Serving you as your 78th Secretary of the Navy is a high honor. It also carries grave responsibilities to which I will dedicate all my skill and devotion.

You should also know I have a bias for action.

Our Navy and our nation face critical challenges on multiple fronts.

Like Secretary Austin, I view our most pressing challenges as the four Cs – China, Culture, Climate, and Covid, and we need the resources and capabilities to address each now.

China is determined to reduce our military superiority. We will not let this happen. We will deter China's aggression, protect our national security, and preserve the peace. Our determination, our skill, and our courage will demonstrate our strength and conviction.

Culture comes down to one goal. Every Sailor and Marine – of all races, genders, religions, and ethnicities – must treat one another with dignity and respect. This is not just about doing the right thing. It is about ensuring our Navy and Marine Corps will be the most talented, most combat ready, most committed force possible.

Climate change exacerbates every challenge we face, from naval installations to frequent deployments. It is also a global struggle for resources that demands ingenuity and innovation. It demands solutions that mitigate climate damage while ensuring our operational success and competitive edge.

Lastly, we must combat Covid. This means we must continue to vaccinate our naval forces with expedience. If we are not vaccinated, we are neither deployable nor combat ready. Immediately, the Navy and Marine Corps will make every effort to vaccinate and care for our force and defeat the scourge Covid has inflicted on our troops.

Both our nation's security and your success as Sailors and Marines require your enthusiastic, unwavering commitment. We will succeed or fail together. Accordingly, with a leadership ethos forged as a Destroyer Captain, I will strive to be direct and transparent with you about what we need to accomplish together.

Please know your safety and welfare will always be paramount to me, and I will work tirelessly with you to meet the challenges that lie ahead.

To do this, we must possess the resources needed to expand our capabilities. I will make that my top priority. I am committed to ensuring you have the tools and training you need to succeed. Just as I am committed to confronting our maintenance backlog, managing our operational requirements, and building our Navy of the future.

When I began my Navy career over 40 years ago, as a midshipman at the U.S. Naval Academy, I looked up to then Secretary of the Navy Edward Hidalgo. Like me, he was an immigrant to this nation and, like me, his experience taught him why the world needs a strong United States Navy. Most of all, I understood that while I served our nation, he also served me.

The same is true today. I am your Secretary of the Navy Marine Corps Team focused on your and our collective promise to our Constitution and nation.

We will succeed together. It has never been more important that we do.

Finally, a personal note. My wife Betty and I well understand the sacrifices your loved ones make and how crucial they are to our success. We are both honored to be back once again working shoulder-to-shoulder with you. We look forward to getting out to the Fleet and meeting you all soon.

Full Speed Ahead.

Very Respectfully,

Carlos Del Toro

China, Culture, Climate, Covid

Advantage at Sea: Tri-Service Maritime Strategy

Working together to maintain our advantage at sea

<https://media.defense.gov/2020/Dec/17/2002553481/-1/-1/0/TRISERVICESTRATEGY.PDF/TRISERVICESTRATEGY.PDF>

Our national security and prosperity depends on the U.S. Navy, Marine Corps and Coast Guard

Five themes

1) **Generate Integrated All-Domain Naval Power**

Produce a more competitive, more lethal total force.

2) **Prevail in day-to-day competition**

Assertively contest actions that infringe upon the free and open use of the maritime environment.

3) **Control the seas**

We can no longer assume unfettered access to the seas in conflict.

4) **Strengthen alliances and partnerships**

Like-minded nations is a key strategic advantage over rivals. We must invest in these relationships.

5) **Modernize the future force**

Develop a modernized naval force with sufficient size and capability to compete effectively, deter aggression, and, if required, decisively win in conflict.

Our actions will shape the maritime balance of power for the rest of this century

CNO NAVPLAN — To deliver the naval power America needs to compete and win

Embrace the urgency of the moment

Four key areas

Sailors: Develop a Seasoned Team of Naval Warriors

Readiness: Deliver a More Ready Fleet

Capabilities: Delivering a More Lethal, Better-Connected Fleet

Capacity: Deliver a Larger, Hybrid Fleet

<https://media.defense.gov/2021/Jan/11/2002562551/-1/-1/1/CNO%20NAVPLAN%202021%20-%20FINAL.PDF>

Delivering emerging capabilities at speed and scale requires every member of our Navy team, including our industry, academic, and research partners

38th Commandant's Planning Guidance (CPG) For a naval expeditionary force-in-readiness

https://www.hqmc.marines.mil/Portals/142/Docs/%2038th%20Commandant%27s%20Planning%20Guidance_2019.pdf?ver=2019-07-16-200152-700

Prepared to operate inside actively contested maritime spaces

Five priority focus areas:

- Force design
- Warfighting
- Education and training
- Core values
- Command and leadership

“in support of fleet operations. In crisis prevention and crisis response, the Fleet Marine Force – acting as an extension of the Fleet – will be first on the scene, first to help, first to contain a brewing crisis, and first to fight if required to do so.”

As good as we are today, we will need to be even better tomorrow to maintain our warfighting overmatch.

Frederick J. (Jay) Stefany

ASN(RDA) (Acting) Guidance

Focus Areas

- Align & accelerate the RDT&E enterprise to focus on the future fight
- Develop an agile, inclusive, and diverse workforce
- Improve acquisition discipline with rigor
- Stabilize and transform the DON's industrial base and supply chain
- Institutionalize weapon system sustainment

Key Stakeholders

- DON Workforce
- American Public
- Industrial Partners and Academia
- Congress
- International Partners
- DOD and Interagency Partners

RDA Support to National Defense

- Provide improved readiness and cutting-edge capabilities to the warfighter to ensure the balance of power in strategic competition remains in our favor.
- Advance nuclear modernization to sustain a strategic deterrent that is safe, secure, and effective.
- Develop the next generation of scientists and engineers to advance an international order that is conducive to collective security and prosperity.
- Remain a force multiplier for US security around the world by providing allies and partners with Foreign Military Sales and international security cooperation.

COVID-19 Vaccine Mandate - Contractors

- ▼ Inclusion of DFARs Clause 252.223-7999, Ensuring Adequate COVID-19 Safety Protocols for Federal Contractors (DEVIATION 2021-O0009)
 - Bilateral Mass Mods for Internal IDIQ Contracts (approx. 75% completed)
 - Bilateral Mass Mods for SeaPort NxG – NAVSEA completing (approx. 50% completed (w/ Active orders))
 - Bilateral Mods for applicable Existing Orders/ “C” Contracts – at next Option Exercise or Period of Performance (PoP) extensions
 - Applicable awards and new solicitations
- ▼ DFARs Clause 252.223-7999 provides guidance to contractors to refer to the following website: www.saferfederalworkforce.gov/contractors
 - Contains FAQs
 - Indicates Covered Contractors must be vaccinated by 8 Dec 2021
 - Identifies requirement to flow down to all subcontractors
 - No further amplifying guidance available

Information Warfare Research Project

Mission to foster collaboration between Government, Industry and Academia to identify, develop and demonstrate the enabling technologies necessary to enhance the Navy and Marine Corps mission effectiveness in the field of Information Warfare.

The first Naval Consortium to have successful prototypes transitioned to production.

Tech Bridges

NavalX serves as DON workforce "super-connector," focused on scaling nontraditional agility methods across the regional and DON workforces to solve dual-use technical challenges.

- ▼ The approach is to connect to pockets of excellence to capture and scale the methodologies being employed, increasing awareness of cross-DoD and external successes, lessons learned, and subject matter experts.

Regional naval innovation ecosystems centered around the NIWC Atlantic labs that support greater collaboration with academia, States, and industry on projects with Naval Information Warfare relevance

Ecosystem — Palmetto Tech Bridge

▼ Focus on technology areas that address both Naval and SC partners problems/interests

- Cyber Systems
- Autonomous Systems
- Advanced Communications (5G)
- Advanced Manufacturing

▼ Stakeholders

- NIWC Atlantic
 - Sponsors – PEO, SYSCOMS
- Other DoD and Federal Agency labs
- South Carolina
 - CDCA, Chas. County, UofSC
 - Non-traditional partners
 - Entrepreneurial community
 - Private investment
 - State agencies and cities

▼ Engagement/Outreach Strategy

- Technology Challenges
 - Prize Challenges, OTA, CRADA,
 - “One-to-many” strategy
- Collaboration events – Tech Tuesday
 - Opportunity for companies to show off their capabilities
 - Business case assessment
 - Tech scouting information / opportunities
- Outreach events – SBIR, H4D, webinars, Entrepreneur training, etc.
 - NIWC Employees
 - Non-Federal partners
- Hosting STEM events
- Internships/sabbaticals

Successes to date — Palmetto Tech Bridge

▼ Successes to date

- Built partnerships
 - Funded Partnership Intermediary Agreement (PIA) (with SCRA and future SC MEP)
 - Charleston Defense Contractor Association, SC Business Incubator Association
- Refined and initiated first Technical Challenge – Network And Data Center Intelligent Assistant (NADIA)
 - Completed Problem Curation, RFI, NISE R&D, CDCA Cong. Add, IWRP
- Initiated second Technology Challenge – Autonomous Systems
 - Completed Problem Curation
- Established engagement tools and activities
 - Prize Challenge – 3 Awards
 - Podcasts, interview, web Portal, etc. to reach out to non-traditional industry partners
 - Outreach to other Federal Labs and innovation regions – DOE, USAF, OSD, Team Redstone
 - Linking PTB events with Regional events
- Identified off-site locations to lower the barrier for collaboration and engagement
 - Developing DevOps, 5G T&E, and other off-site capabilities

Cultivating the Next Workforce & Engaging with our Communities

4th YEAR!
Winner Best Place to Work!
1st Year Best Engineering Firm

In response to COVID-19
NIWC Atlantic quickly
reorganized the STEM Program
to produce first ever virtual events, many
open to students across the country

- Career Fairs
- STEM Clubs
- Robotics
- GIS Week
- Palmetto Cyber Summer Camp
- Girls Day Out Summer Camp
- STEM Mobile Apps / Summer Interns

FY20 Community Impact & Volunteerism

- 71,000+ Students Served
- 300+ Volunteers
- 5,100+ Total Hours*
- 103 First Robotics Teams
- 11 Educational Partnership Agreements

Cyber Camp
Students learned to make water rockets via one of the virtual sessions.

Girls Day Out
Camper learns about a virtual GIS scavenger hunt during a camp session.

STEMFest

Palmetto Cybersecurity Summer Camp

Career & Science Fairs — Cyber Defense Competitions — Cybersecurity Summer Camp — Distinguished Gentlemen Club — Educators in Industry Program — Essay Contests — Feed the Feds Food Drive — FIRST Robotics Leagues — Geographic Information Systems (GIS) — Girls Day Out — Habitat for Humanity — Lunch Buddies — Navy Family Services — Job Shadows & School Tours — SeaPerch — STEM Festivals — STEM Mobile Apps — Toastmasters — Toys for Tots Campaign — Trident Day of Caring — VA Homeless

Serve our Nation by delivering information warfare solutions that protect national security. WIN THE INFORMATION WAR.

Naval Information Warfare Center Atlantic

Shore C2ISR & Integration Department Introduction and Overview

Charleston Defense Industry Association
**59th Small Business and Industry
Outreach Initiative Symposium**
19 October 2021

Mr. Bruce Carter, SSTM
Shore C2ISR & Integration
Department Head

Shore C2ISR & Integration Department Overview

Who We Are and What We Do

The Shore C2ISR and Integration Department engineers critical IT solutions for **Navy and Marine Corps forces, other Department of Defense (DoD) components, and federal agencies.**

From cyber forensics to command and operations centers, we maintain a bold framework of innovation and technical capabilities. From air traffic control engineering to Industrial Control System solutions, we field capabilities that deliver enhanced command and control and improved efficiency. Our reconnaissance, surveillance, and exploitation solutions provide the Navy and Joint Warfighter with insight into our adversaries' actions, intentions, and locations. Our defense health systems deliver automated medical capabilities on the battlefield, in the air, on land, and at sea. Force protection solutions deliver advanced situational awareness and command and control solutions for 24/7 protection to U.S. military bases and installations as well as critical U.S. government facilities, protecting personnel, assets, and resources at home and overseas.

With numerous Integrated Product Teams (IPTs) that engineer and field systems and solutions supporting operational forces deployed overseas and readiness missions stateside, the Shore C2ISR & Integration Department contributes to our nation's defense each and every day.

Key Products and Services

- Anti-terrorism/force protection systems
- Command and control systems
- Intelligence, Surveillance and Reconnaissance systems
- Command and Operations Centers engineering
- Aviation command and control systems
- Military/federal Air Traffic Control systems
- Meteorological forecasting and observation
- Military health IT applications, infrastructure, data management, and security
- DoD Electronic Health Record engr. and testing
- Cyber forensics
- Cybersecurity
- U.S. Strategic Command-accredited Red Team
- Cyber vulnerabilities assessments and tests
- Big data analytics
- Mobility solutions
- Cloud engineering
- Supervisory Control and Data Acquisition (SCADA) systems

- Cyber Security Service Provider / Cyber Operations Laboratory
- Marine Corps Installations Command Electronic Security Systems
- Cyber Forensics Criminal Investigations Laboratory
- Air Traffic Control Systems Engineering Laboratory
- Industrial Controls Systems Laboratory
- Antarctic Remote Operations Facility Air Traffic Control Laboratory
- Command and Operations Center Lab
- Classified National Intel Laboratory
- Joint Strike Fighter ODIN / ALIS

- **Future Focus areas include:**

- Artificial Intelligence (with focus on Cyber Security)
- Mixed Reality/Virtual Reality (with focus on distance Support)
- Automated testing supporting Verification/Validation
- 5G / Robotics Integration
- Internet of Things edge computing and management of data sources

- **\$1.03B in Total Obligation**
 - **Authority**
 - \$786M in New Orders
- **\$560M in Procurement Awards**
 - 31 Service MACs
 - 27 Single Awards
 - 82 Supply MACs
 - 659 Modifications
- **New Orders**
 - 66% Joint
 - 28% Naval
 - 6% Non DOD
- **Workforce FTEs**
 - 58% Joint
 - 38% Naval
 - 4% Non-DOD
- **Department Structure**
 - 838 FTEs
 - 6 Divisions
 - 25 IPTs
 - 120 Projects
- **Top Sponsors**
 - Defense Health
 - Naval Installations CMD
 - Dept. Homeland Security
 - NAVAIR & PEOs
- **Top Occupational Series (75%)**
 - IT Specialist (27%)
 - Electronics Engineer (20%)
 - Computer Scientist (14%)
 - Electronics Tech (8%)
 - Computer Engineer (6%)

Shore C2ISR & Integration Department Overview

Mission

Enable Naval and Joint Readiness by providing integrated Command, Control, and Intelligence products and services that allow for secured mission execution through sound engineering and implementation.

Vision: Delivering Engineered Shore C2ISR solutions that matter to the Warfighter and nation.

Major Customers

- Commander, Navy Installations Command
- Marine Corps Installations Command
- Naval Air Systems Command
- Naval Facilities Engineering Command
- Defense Health Agency
- Defense Logistics Agency Energy

Divisions

- Defense Health Information Technology
- Industrial Controls Systems and Applications
- Special Reconnaissance, Surveillance and Exploitation

Naval Information Warfare Center Atlantic

Defense Health Information Technology Division Challenges and Opportunities

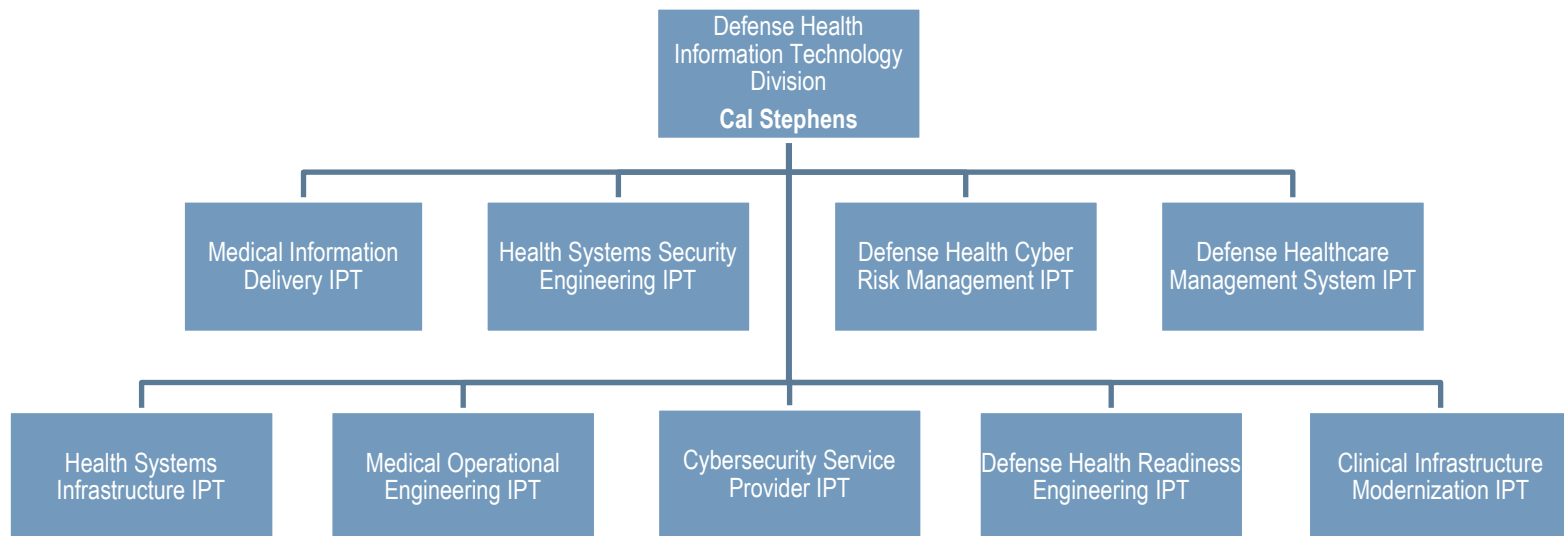

Charleston Defense Industry Association
**59th Small Business and Industry
Outreach Initiative Symposium**
19 October 2021

Mr. Cal Stephens
NIWC Atlantic
Defense Health Information
Technology Division Head

Defense Health Information Technology Division

Defense Health Information Technology Division – What We Do

Enable the Military Health System (MHS) to achieve a ready medical warfighting force and medically ready information technology (IT) systems, environments, and services for all military and civilian beneficiaries that increase readiness, provide better healthcare, and lower cost.

Defense Health Information Technology Division Overview

Primary Customers

- Defense Health Agency (DHA)
- Program Executive Office Defense Healthcare Management Systems (PEO DHMS)
- Navy Bureau of Medicine and Surgery (BUMED)

What We Provide

- Cybersecurity Service Provider (CSSP) and DHA Cyber Operations Center
- DHA Data Center Operations to include Cloud Services engineering/support
- DHA Enterprise Clinical Infrastructure Modernization
- DHA Enterprise Network Operations
- DHA Medical Information Delivery – data warehousing, big data analytics, informatics, clinical decision support, enterprise data management
- DHA Medical Community of Interest (Med-COI) Enterprise Medical Network
- Legacy Medical System consolidation and de-commissioning
- LAN/WLAN Engineering and Implementation (cable plant and electronics)
- Cybersecurity and information assurance services (RMF and IAO/IAM Support)
- MHS GENESIS Electronic Health Record (EHR) (garrison and operational theater) engineering, cybersecurity, testing, interoperability, IT infrastructure standardization, modernization, centralization
- Theater Medical Information Program (TMIP) legacy systems support (Navy, Marine Corps, Air Force, Military Sealift Command)

Defense Health Information Technology Challenges and Opportunities

▼ Pain points / Areas for Industry Support

- Cybersecurity Service Provider (CSSP) support in multi-cloud (SaaS/PaaS) environments
- Artificial Intelligence to assist in triage or reduction cybersecurity alerts for CSSP
- Delivery of outstanding defensive cyber operations in a cost efficient manner in light of the challenges of telework and an increasingly costly/scarcely workforce
- Developing and then evaluating new architecture for compute and storage refresh for DHA Compute and Storage Management System (CSMS)
- Continue to develop/optimize existing CI/CD pipeline and support new customer onboarding

Naval Information Warfare Center Atlantic

Industrial Control Systems and Applications Division Challenges and Opportunities

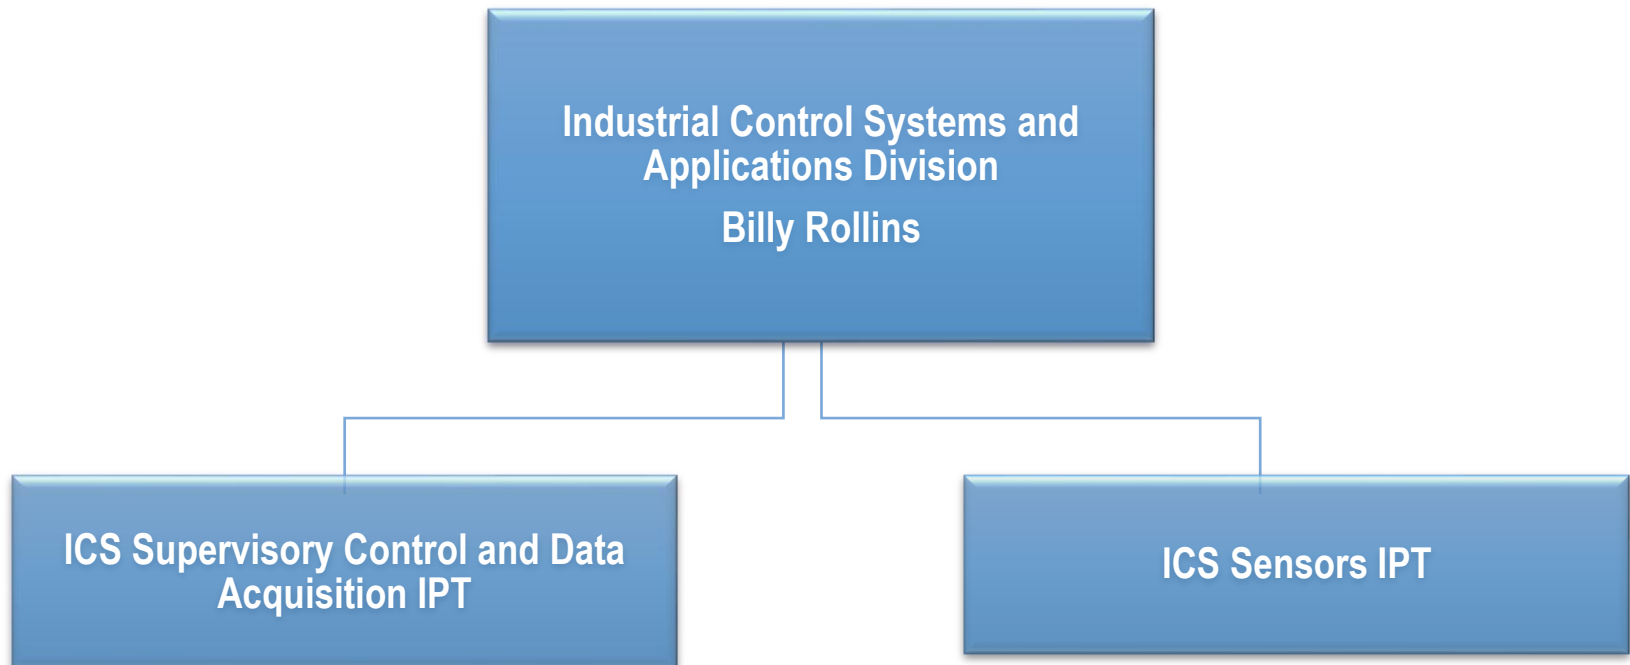

Charleston Defense Industry Association
**59th Small Business and Industry
Outreach Initiative Symposium**
19 October 2021

Mr. Billy Rollins
NIWC Atlantic
Industrial Control Systems and
Applications Division Head

Industrial Control Systems and Applications Division

Industrial Control Systems and Applications Division – What We Do

Provide worldwide Industrial Control Systems Engineering and technical support to deliver secure, reliable, and effective total Industrial Control System (ICS) solutions to Joint Forces.

Industrial Control Systems and Applications Division Overview

Primary Customers

- Defense Logistics Agency
- NAVFAC
- USCG

What We Provide

- Cybersecurity of Industrial Control Systems
- Industrial Control System Solutions – Design, Engineering, Installation, and Integration
- Industrial Control System Monitoring, Configuration Management, and Sustainment
- Validation and Modernization of ICS Secure Capabilities
- DLA's designated Execution Agent

Industrial Control Systems and Applications

Challenges and Opportunities

▼ Pain points / Areas for Industry Support

- Cybersecurity expertise with Facility Related Control Systems (Utility Control Systems, Building Control Systems, etc.)
- Smart Warehousing

Naval Information Warfare Center Atlantic

Special Reconnaissance, Surveillance and Exploitation Division Challenges and Opportunities

Charleston Defense Industry Association
**59th Small Business and Industry
Outreach Initiative Symposium**
19 October 2021

Mrs. Chris Litwin
NIWC Atlantic
Special Reconnaissance, Surveillance and
Exploitation Division

Special Reconnaissance, Surveillance, and Exploitation Division

Special Reconnaissance, Surveillance, and Exploitation Division – What We Do

To enhance the readiness of the Warfighter on a national level by delivering data analytics, system and engineering Intelligence capabilities in Shore, Air and Space.

Special Reconnaissance, Surveillance, and Exploitation Division Overview

Primary Customers

- National Security Agency (NSA)
- Office of the Secretary of Defense (OSD)
- Naval Air Systems Command (NAVAIR)
- Defense Intelligence Agency (DIA)
- Joint Strike Fighter F35 Program Office

What We Provide

- Cloud Computing, DevOps, Cybersecurity
- Data Analytics, Data Engineering, Data Architecture
- Network and Infrastructure Engineering
- Command and Control systems engineering
- Audio/video engineering

Special Reconnaissance, Surveillance and Exploitation Division **Challenges and Opportunities**

▼ Pain points / Areas for Industry Support

- Hands-on DevSecOps expertise / availability with IC credentials
- RMF expertise / Applying Continuous Authorization to DevOps
- Zero Trust Implementation expertise
- Development of products across multiple classification levels

Naval Information Warfare Center Atlantic

Force Protection Solutions Division

Challenges and Opportunities

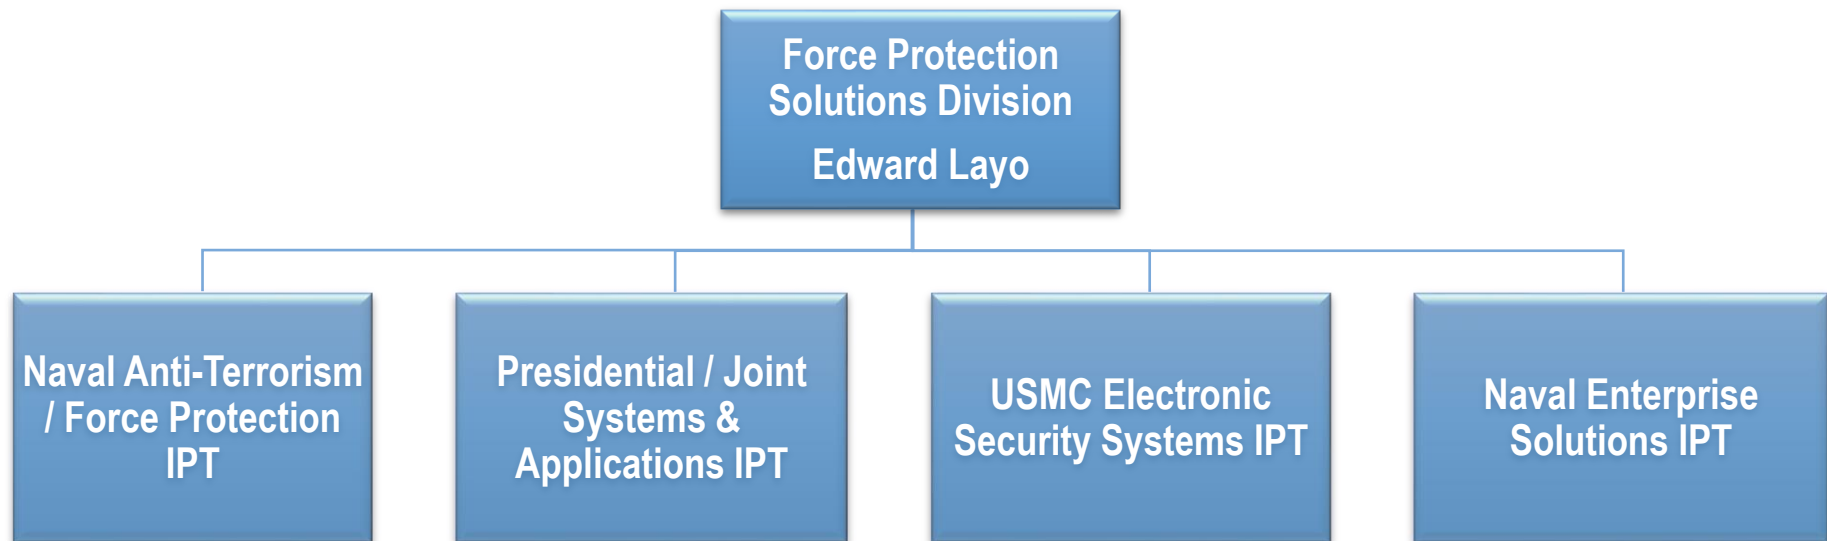

Charleston Defense Industry Association
**59th Small Business and Industry
Outreach Initiative Symposium**
19 October 2021

Mr. Ed Layo
NIWC Atlantic
Force Protection Solutions
Division Head

Force Protection Solutions Division

Force Protection Solutions Division – What We Do

Provide state-of-the-art electronic security and emergency management solutions. Information Management (IM), Information Technology (IT) and Command and Control (C2) services and solutions provider for the Naval Shore Enterprise.

- Marine Corps Installations Command (MCICOM)
- Commander, Navy Installations Command (CNIC)
- White House Communications Agency (WHCA)
- U.S. Secret Service (USSS)
- National Geospatial-Intelligence Agency (NGA)

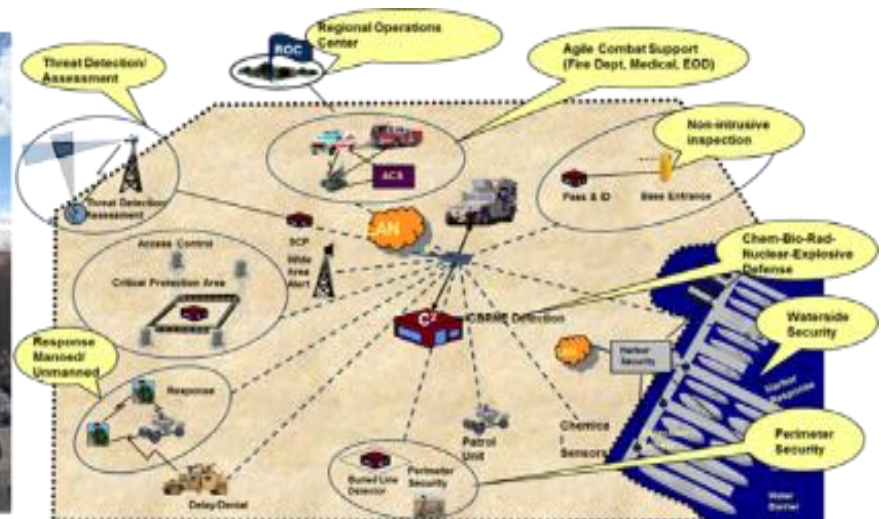

- Integrated capabilities, situational awareness, detection and deterrence, command and control, and coordinated emergency response
- Primary DoD provider of large-scale, integrated Electronic Security Systems (ESS) in compliance with cybersecurity initiatives
- Implementing Navy's next-generation ESS
- USMC ESS / MNS Technical Service Agency
- CNIC IT solutions provider supporting program-wide implementation of cybersecurity initiatives
- Secure communications on the move

Force Protection Solutions Division Challenges and Opportunities

▼ Pain points / Areas for Industry Support

- Streamlining the RMF process
- Navy ESS enterprise initiatives
- Building a qualified ESS workforce
- Leveraging Digital Engineering to build efficiencies

Naval Information Warfare Center Atlantic

Command and Operations Centers Division Challenges and Opportunities

Charleston Defense Industry Association
**59th Small Business and Industry
Outreach Initiative Symposium**
19 October 2021

Mr. Donovan Lusk
NIWC Atlantic
Command and Operations Centers
Division Head

Command and Operations Centers Division

Command and Operations Centers Division – What We Do

Provide first-class Operations support by developing, implementing, and streamlining capabilities to enable timely, well-informed decisions regardless of Warfighting Domain.

Command and Operations Centers Division Overview

Primary Customers

- 5th and 6th Fleets
- NAVCENT/NAVEUR/AF
- Fleet Forces Command
- NCTAMS LANT/PAC
- NAVIFOR
- NAVFAC
- SPAWAR HQ 4.0
- PMW 790
- MARCORSYSCOM
- EUCOM
- AFRICOM
- Joint Staff
- USAREUR
- SMWDC
- CJTF-HOA

What We Provide

- Naval and Joint Command and Operations Centers
 - Maritime Operations Centers (MOCs)
 - Emergency Operations Centers
 - Joint Operations Centers (JOCs)
 - Tactical Operations Centers
- MILCON C4ISR Engineering, Integration, and Testing
- Audio Visual Collaboration and Display Systems
- Exercise Planning (Solutions Development and Deployment)
- Professional Military Education IT Support

Command and Operations Centers Division

Challenges and Opportunities

▼ Pain points / Areas for Industry Support

- Configurable Access Based CDS Solution capable of supporting 21 networks across 4 domains
- Digital Engineering (MBSE, MBE, etc.) methodologies and toolsets
 - Sharing DE models with Industry
 - Establishing “digital thread” across MBE (e.g. BIM) and MBSE (e.g. SysML)
 - Utilizing SysML to automatically generate software via DevSecOps
- Executing interactive reviews worldwide within model space vice using flat files and beyond a “webex”
- Providing Digital Engineering artifacts to enable configuration management, maintenance, and modernization for numerous Shore Platforms worldwide

Naval Information Warfare Center Atlantic

Air Traffic Control Engineering Division **Challenges and Opportunities**

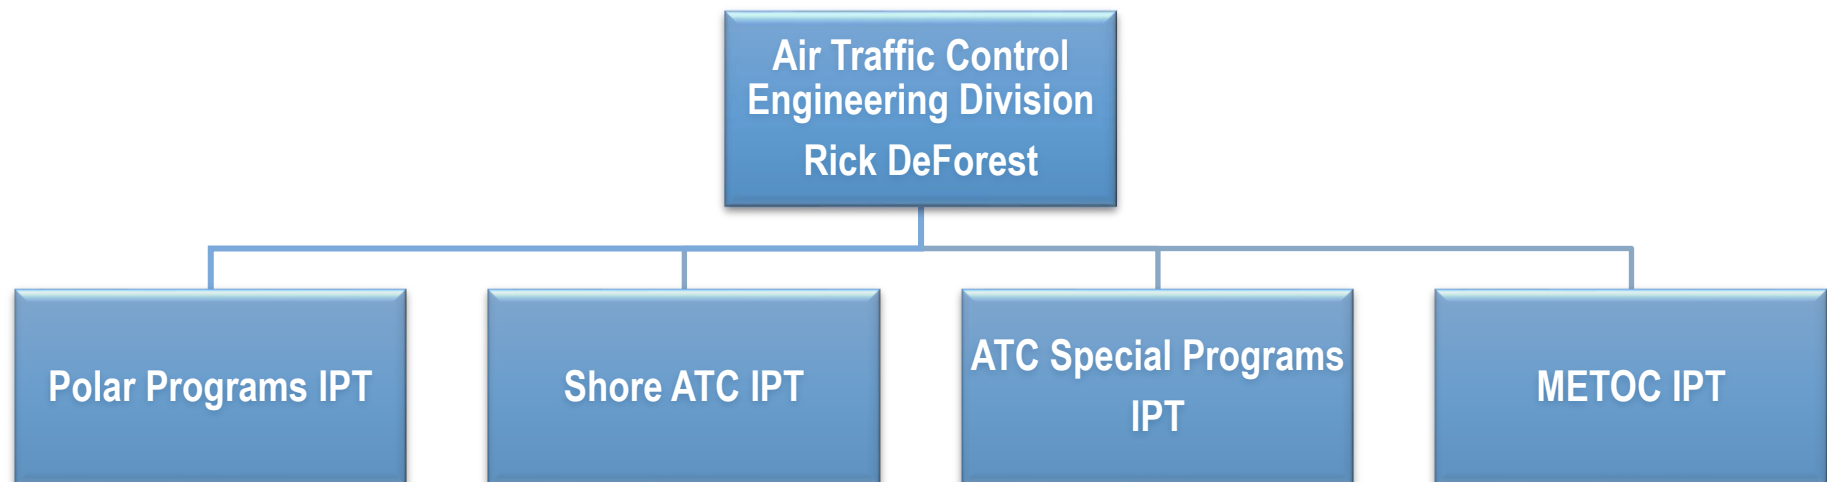

Charleston Defense Industry Association
**59th Small Business and Industry
Outreach Initiative Symposium**
19 October 2021

Mr. Rick DeForest
NIWC Atlantic
Air Traffic Control Engineering
Division Head

Air Traffic Control Engineering Division

Air Traffic Control Engineering Division – What We Do

Provide global Air Traffic Control (ATC), Aviation Command and Control (AC2), and Meteorology (METOC) cradle-to-grave systems engineering, Air Traffic Control operations, Electronics Maintenance, and Meteorological forecasting and observation services.

Air Traffic Control Engineering Division Overview

Primary Customers

- NAVAIRSYSCOM/Program Executive Officer, Tactical Aircraft Programs [PEO(T)] PMA-213
- Marine Corps Training and Education Command (TECOM)
- U.S. Air Forces Central Command (AFCENT)
- PEO C4I PMW120
- National Science Foundation (NSF)
- Federal Aviation Administration (FAA)
- HQ AFLCMC
- HQ AFFSA

What We Provide

- ATC/METOC Design, Engineering, and Integration
- Aviation Command and Control Services
- ATC Logistics and Configuration Management

NAVAIR 1992 MOA established SPAWAR Systems Center (now Naval Information Warfare Center) Atlantic as an ATC Center-of-Excellence to support shore-based ATC & Landing systems and programs worldwide

Air Traffic Control Engineering Division

Challenges and Opportunities

▼ Pain points / Areas for Industry Support

- ATC continues to enjoy collaborative & robust industry partner support
- New ATC Niche MAC/SAC awarded May 2021
- Anticipate increased need for engineering & PM support
- Augmented Reality / Artificial Intelligence enhanced distance support & training adaptation/integration and implementation
- Visual Information Display System (VIDS) DevSecOps integration, support, and utilization
- Remote Tower [AR] technology Early Operational Evaluation in various environments

Target	39.27%	17.7%	11.37%	1.55%	5.42%

FY21 – Year in Review

▼ Major Awards

- Awarded 4 large contracts:
 - ATC; UHF Couplers; Info Systems Security; and Video, Radio Comms & Unified Capabilities
- Awarded 5G Open BAA for OUSD
 - Awarded 13 task orders >\$25M to support programs/efforts such as:
 - USSOCOM, USCG, DARPA, C4I Afloat, etc.

▼ Virtual Industry Days held for 5 task orders >\$50M

▼ ASN(RD&A) approval to proceed with IWRP 2

▼ Successful HQ PPMAP / Command Inspection

- "Satisfactory with low risk"
- 3 Best Practices: Metrics Usage, Employee Council, and COR File Review Process
- Multiple strengths, no significant weaknesses/deficiencies, some opportunities for improvement

▼ Utilizing Section 233 Authorities; e.g., construction

▼ Flank Speed Transition

▼ Return to Work / Depersonalization of 2.0 spaces (pilot)

FY22 – Year Ahead

▼ Reinstatement of Service Acquisition Workshop (SAW) 1 Oct 2021

- “C” type and single award IDIQ basic contracts with a total contract value of \$500M or more or an annual value of \$250M or more
- Task orders under MACs valued at \$100M or more

▼ Reinstatement of Cross-SYSCOM Peer Reviews 1 Oct 2021

- Procurements \$250M or more

▼ DD254 at the Task Order Level for TS/SCI

▼ Implementation of Automation Tools: AMS / eCraft

▼ Vaccine Mandate

- Clause 252.223-7999 “Ensuring Adequate COVID-19 Safety Protocols for Federal Contractors” (Deviation 2021-O0009)

▼ Contract Strategy

- Align to Technical Strategy
- Address outsourcing requirements due to budget constraints
- Sea Enterprise (SE) Global Installation Contract (GIC) Administration

▼ Workplace Flexibilities

Contract Strategy supports Technical Focus Areas Developing today for the warfighter needs of tomorrow and beyond.

Artificial Intelligence: 5.6 is the Command lead. Strategy is to issue an order or single award contract to acquire specialized skills in this TFA.

Assured Communications: 5G BAAs and IWRP OTs

Cloud Computing: Our primary strategy for stand alone Cloud services is to utilize the HQ Cloud BPA. Owner in the command is 5.4/5.5. Dec 2020 Navy Cloud Policy coming out of ASN RDA/DON CIO - prohibition on buying cloud services as part of a larger systems integration or support services contract - We can issue orders against any of the existing cloud vehicles, but we'd have to get PEO Digital's approval if we wanted to issue our own solicitation for a new vehicle.

Cybersecurity: Provides protection from unauthorized use of and/or defends electronic data, hardware, software from disruption or of the services they provide. Appropriate to acquire cybersecurity embedded in most of our acquisitions. Historically we have had a Cyber services contract (CME) and a Cyber solutions contract (CMS). Do we need to continue those? Owner in the command is 5.9 – developing there own support contract action.

DevSecOps: Refers to replacing siloed Development, Security and Operations to create multidisciplinary teams that collaborate with shared and efficient practices and tools. Many times these services are embedded in bigger contract actions as well. Strategy could change to modular contracting if the requirements are separated into their own action (small and more agile – iterative). Owner in the command is 5.4.

Mobility: Provide Wireless Technology and enterprise access for the warfighter to engage with a mobile environment and applications, anytime, anyplace. Owner in the command is 5.5. 5G BAAs?

Model-Based Systems Engineering (MBSE): Technologies used to support the development, management and application of virtual constructs of varying fidelity across the spectrum of systems engineering. Appropriate to acquire as an embedded requirement in other actions. 5.2 is the owner for the command.

On-Demand Manufacturing: Produce products and/or components, when or as they are required at the point of use, using additive and/or traditional manufacturing methods. 4.7 is the owner for the Command. Corporate Production or CMS strategy?

8 Technology Focus Areas (TFAs) to Achieve Technology Goals

Technology Strategy and TFA analysis drives work acceptance and lab/facility infrastructure allocations and tools.

Artificial Intelligence: Provide warfighters with analytics-driven, data-informed, and technology-empowered capabilities to drive decision advantages and optimal mission outcomes.

Assured Communications: Addresses the demand for resilient, and sometimes covert, wired and wireless communications in degraded and/or denied environments.

Cloud Computing: IT modernization and digital transformation for resilient infrastructure, platform and software services.

Cybersecurity: Provides protection from unauthorized use of and/or defends electronic data, hardware, software from disruption or of the services they provide.

DevSecOps: Refers to replacing siloed Development, Security and Operations to create multidisciplinary teams that collaborate with shared and efficient practices and tools.

Mobility: Provide Wireless Technology and enterprise access for the warfighter to engage with a mobile environment and applications, anytime, anywhere.

Model-Based Systems Engineering (MBSE): Technologies used to support the development, management and application of virtual constructs of varying fidelity across the spectrum of systems engineering.

On-Demand Manufacturing: Produce products and/or components, when or as they are required at the point of use, using additive and/or traditional manufacturing methods.

IWRP is the first Naval Consortium to have successful prototypes transitioned to production.

Mission to foster collaboration between Government, Industry and Academia to identify, develop and demonstrate the enabling technologies necessary to enhance the Navy and Marine Corps mission effectiveness in the field of Information Warfare.

Small Business Update

Charleston Defense Industry Association
**59th Small Business and Industry
Outreach Initiative Symposium**
19 October 2021

Ms. Robin Rourk
Office of Small Business
Programs Deputy Director
NIWC Atlantic

DoD SB Industrial Base Priorities

“Small businesses are the economic engine of our nation. They are our job creators, innovators and contribute daily to the mission of the Department of Defense (DoD). The department is committed to increasing opportunities for small businesses, including those from underserved communities, to compete for defense contracts.”

<https://www.defense.gov/News/Releases/Release/Article/2767014/leveraging-the-capabilities-of-small-businesses/>

- ▼ DoD plans to leverage the capabilities of small businesses to:
 - Increase competition
 - Strengthen domestic supply chains
 - Support equity and inclusion in defense procurements

Barriers Facing Small Business In Contracting with the DoD

- ▼ DoD is seeking comments and information to assist the DoD in updated its SB Strategy, specifically addressing:
 - Business practices that might deter SB from provided goods and services to the DoD
 - Regulations and practices that may strain relationship with SB
 - Use of past performance info in source selection...
 - Availability of skilled personal to sustain SB ecosystem
 - Contracting timelines and the impact to SB
 - And others! Check it out here:
<https://www.federalregister.gov/documents/2021/09/08/2021-19352/notice-of-request-for-comments-on-barriers-facing-small-businesses-in-contracting-with-the> (Closes 25 October)

- ▼ Distinctly focused on changes in policies and processes geared toward a new approach for 21st century supply chains. <https://www.defense.gov/News/News-Stories/Article/Article/2793970/supply-chain-resiliency-is-whole-of-government-effort/>

Supply Chain Resiliency

- ▼ DoD is seeking comments and information to assist the DoD's assessment of defense industrial base supply chains.
 - Specifically seeking information about key supply chain vulnerabilities and opportunities to address vulnerabilities.

Comments requested on four key topics including:

- Kinetic capability
- Energy storage
- Microelectronics
- Casting and forgings

Along with five systemic enablers, including:

- Workforce
- Cyber posture
- Interoperability
- Small Business
- Manufacturing

<https://www.federalregister.gov/documents/2021/09/28/2021-21046/federal-register-notice-of-request-for-written-comments-in-support-of-the-department-of-defenses>

DoD Class Deviation - Limitations on Subcontracting (LOS)

- ▼ Effective September 10, 2021
- ▼ Recognizes certain exclusions from the LOS for small businesses that are outlined in SBA's regulations but have not yet been added to the FAR.
 - The SBA rule provides that the following services may be excluded from the 50% limitation:
 - 1) other direct costs (to the extent they are not the principal purpose of the acquisition and small business concerns do not provide the service), such as airline travel, work performed by a transportation or disposal entity under a contract assigned the environmental remediation NAICS code (562910), cloud computing services, or mass media purchases
 - 2) work performed overseas on awards made pursuant to the Foreign Assistance Act of 1961 or work required to be performed by a local contractor. These exclusions are not in the FAR.

Social Media Updates

▼ All Things Small Business (ATSB) Podcast

- Hosted by DAU Small Business Learning Director
- Topics include
 - Prize Challenges

Updates from DoD SB Training Week

▼ Cybersecurity Resources

- Project Spectrum – DoD initiatives that provides resources tool and training
<https://projectspectrum.io>
 - Resources such as self assessments, articles and community forums

▼ Trusted Capital and Foreign Investment Risks

- Capability Providers are entities that specialize in providing/developing products and services in key technology sectors and subsectors (twenty-seven key technology areas). These entities have highlighted key capabilities and have been down-selected by DoD partners and/or DoD innovations programs for inclusion in the Trusted Capital program so that they can raise additional investment funding for growth.

▼ Harnessing Innovation of SB through SBIR/STTR

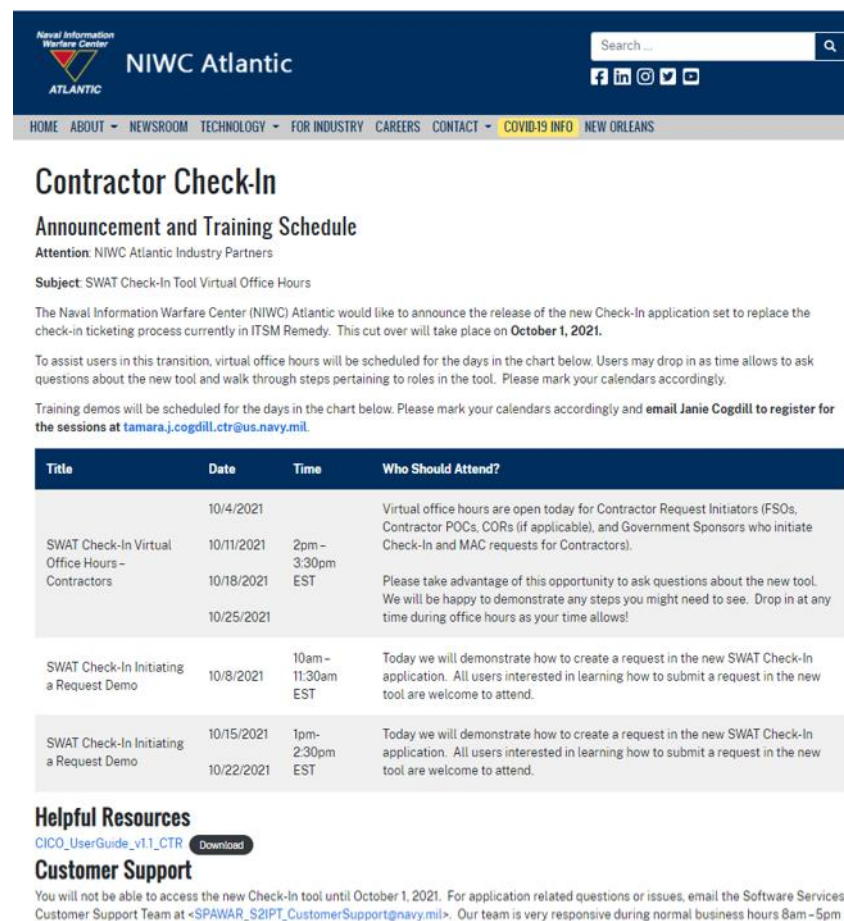

- <https://www.navysbir.com/> DoD FY-21.3 SBIR Broad Agency Announcement (BAA) Closes 10/21/21
- NAVWAR Standard SBIR Topics:
 - N213-141 Positioning Using Magnetic Anomalies Correlation of Earth (PUMACE)
 - N213-142 Automated High Frequency Communications Planner

Contractor Check-in Check Out Update

- ▼ NIWC Atlantic will use the SWAT Check-In Application to support personnel joining the NIWC Atlantic team, including government civilian, military, and contractor personnel. This application also supports the addition or update of new accounts, resources, and/or services, and changes to personal, employment, and contract information.

New Public Web Page:

<https://www.niwcatlantic.navy.mil/contractors/>

The screenshot shows the NIWC Atlantic website with a search bar and navigation links. The main content is titled "Contractor Check-In Announcement and Training Schedule". It includes an attention line for industry partners and a subject line about the SWAT Check-In Tool Virtual Office Hours. The announcement text states that the new Check-In application will replace the current ITSM Remedy process starting on October 1, 2021. It also mentions virtual office hours and training demos. A table provides the schedule for these events.

Title	Date	Time	Who Should Attend?
SWAT Check-In Virtual Office Hours - Contractors	10/4/2021		Virtual office hours are open today for Contractor Request Initiators (FSOs, Contractor POCs, CORs (if applicable), and Government Sponsors who initiate Check-In and MAC requests for Contractors).
	10/11/2021	2pm - 3:30pm EST	
	10/18/2021		Please take advantage of this opportunity to ask questions about the new tool. We will be happy to demonstrate any steps you might need to see. Drop in at any time during office hours as your time allows!
	10/25/2021		
SWAT Check-In Initiating a Request Demo	10/8/2021	10am - 11:30am EST	Today we will demonstrate how to create a request in the new SWAT Check-In application. All users interested in learning how to submit a request in the new tool are welcome to attend.
	10/15/2021	1pm - 2:30pm EST	Today we will demonstrate how to create a request in the new SWAT Check-In application. All users interested in learning how to submit a request in the new tool are welcome to attend.
	10/22/2021

Final Remarks
Intro to Networking Break and Speed Networking

We Want to Hear from You!

**Congratulations to these
Survey Gift Card
Winners!**

**57th SBIOI:
Jacki Major, DIGITALiBiz**

**58th SBIOI:
Whitney Bridges, GRSi**

In an effort to make each event as beneficial to our attendees as possible, we ask that you please complete this survey:

<https://www.charlestandca.org/sbioi-survey>

- Your feedback will help us provide you the best experience possible.
- The survey link will be emailed to all SBIOI attendees.

Please submit your survey by:
Friday, 22 Oct 2021
for a chance to win a **\$50 gift card**.

Speed Networking

3:00 pm – 4:45 pm
